Dear New Employee,

At BTB™ Meteorology we provide industry leading blimp weather forecasts. Unfortunately, due to restructuring efforts we are unable to provide a weather forecast for today's journey.

We have attached a diagram and an excerpt from our revolutionary BTB™ Tempestatibus™ forecast system (patent pending) to ensure your calculation procedures are performed accurately.

Excerpt from the manual: "WIND SPEED AND DIRECTION DIFFER BETWEEN ALTITUDE LEVELS [therefore] THE BLIMP OPERATOR MUST CONSIDER OPTIMAL ALTITUDE FOR THEIR HEADING".

Wishing you success in your deliveries,

CAMMY STURGIS

Chief Restructuring Officer Partner
